It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Balancing chemical equations is a skill that some students can do but they cannot explain how to do it. My point to the class today is that if you can articulate how to do something, you will actually be more likely to truly learn the skill because putting what you know into words uses a different set of skills and a different part of the brain.
